Re: Letter of Intent – Medical Imaging of Fredericksburg, LLC – Addition of One Computed Tomography Scanner and One Magnetic Resonance Imaging Scanner

Dear Dr. Oliver:

I am writing pursuant to 12 VAC 5-220-180 of the Virginia Administrative Code to advise you of the intent of Medical Imaging of Fredericksburg, LLC (MIF) to file a certificate of public need application to add one Magnetic Resonance Imaging (MRI) and one Computed Tomography (CT) scanner in Planning District 16 in Spotsylvania County. Medical Imaging of Fredericksburg, LLC intends on establishing a diagnostic imaging center that will provide the community with improved access to clinically important medical imaging technology, including this advanced imaging technology, which will raise the quality of imaging services and enhance the quality of patient care. The imaging center is planned to be located in the Wilderness area of Spotsylvania County.

We appreciate receiving the appropriate application forms so that we may proceed in the upcoming review cycle for Batch Group D.

Sincerely,

A handwritten signature in black ink that reads "Jeffrey Frazier".

Jeffrey Frazier, MD
Medical Director, MIF, LLC
